

Empowering people to reach their potential

Disability Resource Centre (HB) Trust is a Charitable Trust that helps people overcome the barriers they face so that they can lead happy and rewarding lives.

Within the organisation we have four main services:

TURNING POINT

(Community Activities)

A service that walks alongside people with disabilities to build their confidence and independence, helping them meet their goals and become active members of society.

NETWORK PERSONNEL

(Employment Services)

A service that works closely with people to match them to paid employment that complements their skills and abilities. Employment Consultants support both the employer and the employee to ensure a smooth, lasting working relationship. Our recruitment service is free to employers and we can facilitate access to Government funding if relevant.

DIAS

(Disability Information Advisory Services)

A service that aims to provide free,

accurate, up to date and objective information and advice to disabled people, their families, whanau, aiga, caregivers, providers and the general public. Information and advice could be about a type of impairment or the impact of disability on a person and their family/whanau. It may also include information about disability support services and how these can be accessed, for example, how to access equipment or support at home.

SCOPZE

(Day Service)

A family/whanau focused service that works with people who require a more structured, supportive environment. Individualised and group activities occur both at SCOPZE and in the local community.

Staff are qualified to carry out personal cares for those requiring this service.

SCOPZE Day Service is dependent on donations and funding from those attending the service.

If you or someone you know would benefit from being part of this supportive environment please contact us on 873 8210 or contact scopze@drchb.org.nz
